RE: ~~Uintah County~~ Tar Sands Mine  
PRO/047/022  
~~Uintah County~~, Utah

Dear Mr. Nelson:

As per our telephone conversation of February 17, 1984, enclosed please find a copy of the above referenced tar sands operation (proposed) for your review. The Division has found the mining plan quite deficient in many respects and is recommending to the County that their representative(s) attend a meeting in the near future with the Division technical staff to discuss their needs in supplying DOGM with sufficient information to process this mining and reclamation plan (MRP). Your presence at this meeting would be beneficial to both our staff and the applicant (Uintah County) and I will keep you informed as to the date and time of the meeting.

It would be most appreciated if you would coordinate the Bureau of Air Quality's review of this MRP. Should you have any questions, please contact myself or Ev Hooper of the Division at your earliest convenience.

Sincerely,

*Mary M. Boucek*
